

WALLS

SCULPTED STANDARD or PRO

Whatever the building requirement, Belgard® wall systems are designed to work in harmony with your landscape. From functional retaining walls to fashionable outdoor living areas, you decide the application.

WE'LL PAVE THE WAY

Belair Wall® in Sable Blend

FREESTANDING OR RETAINING

Knowing the difference between retaining and freestanding walls can have a positive impact on your project and lead to a more enjoyable outdoor space.

Freestanding walls allow you to divide your outdoor living space into different areas. They provide visual interest and can make even the largest yard feel more intimate. Freestanding walls easily incorporate with other features like fireplaces or outdoor kitchens to provide a cohesive look.

Retaining walls can have multiple purposes. Some help to increase usable space, whether that be a flower bed or added yard space, while other retaining walls help to prevent erosion. Either application is made possible by a wall system that holds back soil and properly manages drainage. Larger walls also utilize soil reinforcement for added strength and long-term stability.

ASHLAR TANDEM & TANDEM COLUMN KIT

ACCESSORIES

The details complete the design. Belgard offers caps, columns and other accessories to complement any hardscape design. Mix textures to add a modern look to a rough-hewn wall-face. Include a cap in a complementing color to add visual interest. The possibilities are endless!

Consult a Belgard Certified contractor for information on all of our wall products and to receive project design assistance through Belgard Design Studio.

HOW TO SHOP WALLS

FACE-STYLES

Outdoor areas of any size or shape can be transformed with Belgard wall products. The shapes and textures of our wall systems blend with the environment to create attractive and functional landscape wall features.

Tandem[®] Wall

The Tandem family of products is a revolutionary platform that showcases the Stone-like aesthetic that homeowners prefer while offering job site efficiencies contractors need. Tandem is a complete system, with a column kit and modular grid to provide versatility with an Ashlar face style to complement any outdoor living space.

WALLS

The Tandem Wall system designed by Belgard® is an innovative, versatile system that can be used to create attractive, curved or straight retaining and freestanding landscape walls. Great for use in a wide range of residential and light commercial hardscape projects.

COLUMNS

Building columns is easy with the Tandem system. Add a finishing touch to a wall, create a grand entry the end of a driveway or dress-up an existing deck post with a stone-faced column. Ask your Belgard Representative about our **Tandem® Column Kit** with Steel Cages, Clips and Veneer Units in one convenient package.

MODULAR GRID

Tandem® Modular Grid is a revolutionary system that makes it easy to construct outdoor living elements. Use steel grids and heavy-duty connectors to construct virtually any structure up to 7 ft tall including privacy walls, outdoor benches, kitchens and much more.

HOW IT WORKS

Belgard's connector design creates structural integrity in curved or straight walls.

BENEFITS BY THE NUMBERS:

- Meets additional ASTM standards (C-1372 & C-1262)
- Freestanding walls up to 28"
- Exceeds 5,000 PSI compressive strength concrete
- Engineered 90° corners
- Gravity walls up to 3 ft
- Reinforced walls up to 7 ft

ASHLAR TANDEM™

FREESTANDING / RETAINING WALL

Ashlar Tandem provides the look and feel of chiseled stone with the easy installation of the Tandem Wall platform. Virtual joints and multiple sizes allow for a seamless connection between units.
