REGAL & CROWN PELLET SERIES
Pellet Grills

Broil King.

The Pellet Smoker Series was designed to make smoking easy. A simple touch of the dial lets you smoke, sear or roast. Use the preset temperatures and let the grill take the hard work out of cooking or use the digital control display to maintain the temperature, from low and slow up to a searing 600°F. Constructed from heavy-gauge steel, these durable performance grills are built to last. (Finish: **Black** = 2mm/14 gauge Steel with Black finish)

READY-TO-FINISH
fire pits

READY-TO-FINISH FIRE PIT KITS

CIRCLE | OCTAGON | RECTANGLE | SQUARE

We offer a variety of ready-to-finish fire pit kits. Ready-to-Finish fire pits are constructed of a welded aluminum frame with concrete board sheathing. RTF fire pits includes a drop in Match-Lit CrossFire Burner System, flex line kit and vents. All are ready to install and complete on-site with your exterior finish material.

If you are looking for a decorative fire pit kit, check out our variety of styles including classic square, rectangle, circle or octagon. If you have a custom shape or size you would like to have adorn your patio or backyard, we can customize your fire pit kit to fit your needs.

READY-TO-FINISH FIRE PIT KITS

All Ready to Finish Fire Pits includes: (1) Pan with 2" Sidewalls, (1) Crossfire™ Brass Burner, (1) Aluminum Frame with Concrete Board, (2) Vents, (1) Flex Line, (1) Key Valve, and (1) 12" Key. All pits listed in this section are standard Match Lit Systems.

Upgrade to a Push Button Ignition System, Mercury Ignition System or a 24V Electronic Ignition System. Extended lead times and additional freight apply.

TUNGSTEN SMART-HEAT ELECTRIC

BROMIC HEATING

Ceiling Mounted Tungsten White w/ Tube Suspensions Kit

Ceiling Mounted Tungsten Black w/ Ceiling Recess Kit

FEATURES

- **High Performance Mesh Screen**: The Tungsten's unique front cover manipulates infrared energy to maximize performance while achieving a superior spread of heat.
- **Ultra-Durable Quartz Element**: Translucent fused quartz houses a thick steel coil to create a high-output, durable element that emits a soft red glow.
- **Parabolic Specular Reflector (PSR)**: A mirror-finish anodized rear reflector directs lost infrared energy back towards the target, maximizing performance and efficiency.
- **Precise Directional Heating**: Accurately alter coverage through simple bracket adjustment. (Mounting Brackets Included)

PLATINUM SMART-HEAT GAS

BROMIC® HEATING

Wall Mounted Platinum 500 w/ Heat Deflector and Included Mounting System

Platinum 500 w/ Heat Deflector

FEATURES

- **Tinted Glass-Ceramic Screen**: The Platinum's screen spreads comfort evenly across an area while emitting a soft red glow.
- **Ceramic Efficiency**: Slow-release ceramic burners efficiently combust gas to fuel the most environmentally friendly gas-fired heating method available.
- **Elegantly Subtle Design**: Equally at home as the stunning centerpiece or supporting from the sidelines.
- **Patented Direct Ignition**: Automated direct ignition eliminates the need for a pilot, resulting in instantaneous ignition.
- **Ultimate Wind Resistance**: Patented screen and ionization probe technology enables remarkable wind resistance, functioning reliably in winds of up to 11 mph.
- **Directional Control**: Easy pivot bracket offers adjustable heat direction and coverage.

TUNGSTEN SMART-HEAT PORTABLE

BROMIC®
HEATING

FEATURES

- **Heat Output**: The Tungsten Smart-Heat Portable delivers a widespread heat field.

- **Versatility**: Unique and patented adjustable heat control ensures comfortable heat.

- **Efficiency**: High intensity ceramic burner, delivering optimal heat with minimal heat loss.

- **Wind Resistance**: Specifically built to provide constant and consistent heat in any environment at wind speeds up to 8 mph.

- **Directional Heat**: Innovative adjustable tilting head ensures warmth goes exactly where it is needed.

- **Modular Design**: Functional and progmatic, the Tungsten Smart-Heat Portable can easily be assembled, dismantled and stored.

- **Maneuverability**: Anti-tilt structure with built-in wheels for easy movement.

- **Soft Touch Ignite**: Battery activated repetitive spark Ignition

HEAT PLANNING GUIDE

Answer these questions to help plan out your Bromic Heating project.

1) How big is the space you are looking to heat? (LxW)

2) What are you trying to heat? ☐ Entire space ☐ Focus on a few areas

3) Can you supply plans, pictures, or drawings of the space? ☐ Yes ☐ No

4) Is your space covered or open?

    ☐ **COVERED**

        Ceiling Type: ☐ Pitched/Vaulted ☐ Flat

        Ceiling Height:

        Ceiling Material:

    ☐ **OPEN**

        What are you mounting to?

5) Select Heat Type, Electric or Gas/Mounting/Controls:

    ☐ **ELECTRIC**

        Voltage Supply: ☐ 208 ☐ 240 ☐ 277

        Phase: ☐ Single Phase (1PH)

        Mounting: ☐ Surface → If Surface, choose: ☐ Wall ☐ Ceiling

                ☐ Recessed → If Recessed, specify color:

        Controls: ☐ On/Off ☐ Dimming Capability

        Is there a home automation system present? ☐ Yes ☐ No

    ☐ **GAS** *(Covered areas need a minimum of 10.5' ceilings)*

        Fuel Type: ☐ NG ☐ LP

        Surface Mount: ☐ Wall ☐ Ceiling

        Portable: ☐ Yes ☐ No

WHY INFRARED HEAT?

INFRATECH
C O M F O R T

A heated quartz element emits a safe, clean wavelength of light that is only absorbed by solid objects, transferring heat directly to a person, table or floor rather than heating the air.

For this reason, infrared heat can be distributed very evenly, and will not simply "blow away" in windy or drafty conditions. Infratech medium wave quartz element heaters are 93% efficient and emit a barely discernible, pleasing glow that will not affect the ambience of your gathering – unlike competitive short-wave or halogen electric heaters that produce a very harsh glare or bright-colored light.

COST OF OPERATION & MAINTENANCE

OPERATION

It's simple to determine the cost of operating an Infratech heater—multiply the rate charged by your local utility company by the wattage of your heater.

Your Utility Rate **X** Wattage of Your Heater **=** Cost of Operation

EXAMPLE: Your utility charges $0.15* / kilowatt hour (kW) X 3 (for a 3000 watt heater) = $0.45 / hour

*This is the National Average. Utility charges will vary.

MAINTENANCE

Unlike traditional gas heaters, Infratech electric heaters are virtually maintenance free. For long lasting use, we recommend once a year to spray the heater with a hose and wipe down. Our elements are rated to last 5,000 hours, plus they are simple and inexpensive to replace.

When you consider our low cost and minimal maintenance, Infratech heaters are easily the first choice when heating outdoor space.

3 STEPS TO CHOOSING YOUR INFRATECH SYSTEM

INFRATECH
C O M F O R T

STEP 1: MEASURE THE AREA

Determine the approximate measurements and mounting heights of the area you want to heat (Include: length, width, and height). Also consider where people will gather and spend time, like dining or lounge areas.
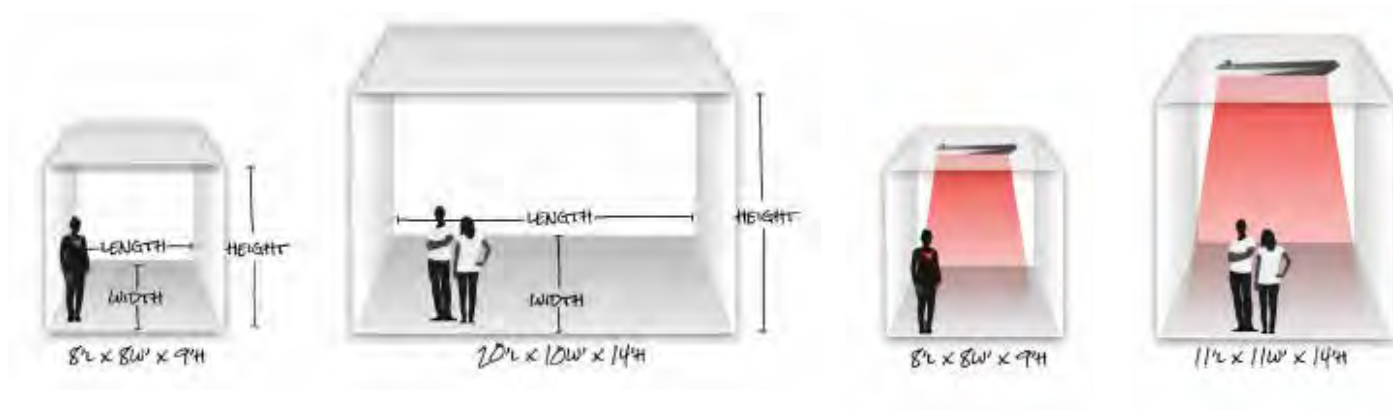

STEP 2: SELECT THE HEATERS

Select the heater(s) that will work both functionally and aesthetically for your space. Consider factors such as size, voltage, number of heaters, colors, and mounting options.

C-20
HEAT COVERAGE AREA: 6' x 6'
MOUNTING HEIGHT: 7' to 9'

C-25 | CD-30
HEAT COVERAGE AREA: 7' x 7'
MOUNTING HEIGHT: 7' to 9'

C-30
HEAT COVERAGE AREA: 8' x 8'
MOUNTING HEIGHT: 7' to 9'

C-40
HEAT COVERAGE AREA: 10' x 10'
MOUNTING HEIGHT: 8' to 11'

CD-40
HEAT COVERAGE AREA: 8' x 10'
MOUNTING HEIGHT: 8' to 12'

CD-50
HEAT COVERAGE AREA: 9' x 10'
MOUNTING HEIGHT: 8' to 12'

CD-60
HEAT COVERAGE AREA: 11' x 11'
MOUNTING HEIGHT: 10' to 14'
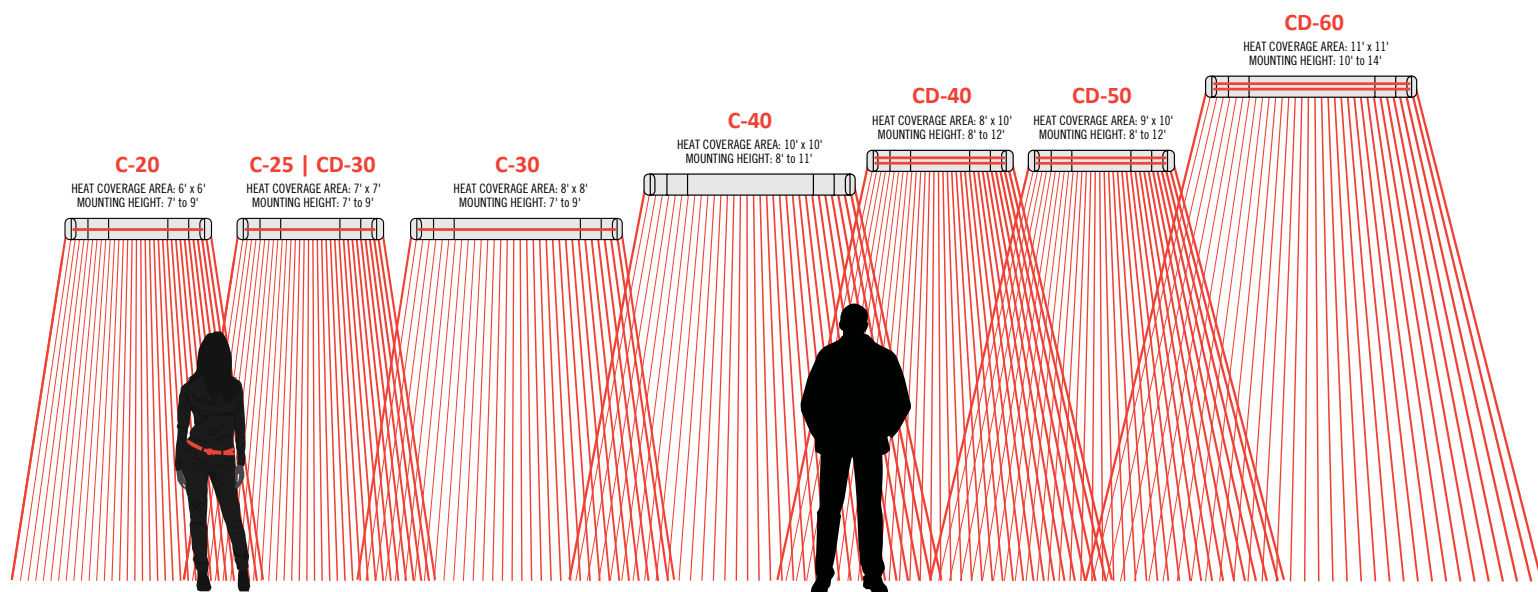

NOTE: Indoor or well-protected environments will generally exceed average coverage. Heaters may provide less than average coverage in extremely cold or windy conditions.

3 STEPS TO CHOOSING YOUR INFRATECH SYSTEM

STEP 3: CHOOSE THE CONTROLS

Choose a control option that works best for your application and budget.
Options include value controls, solid-state relay control package, home management integration panel and the new universal control panel.

VALUE CONTROLS

Simple On/Off Switch   Duplex/Stack Switch   Infinite Control Regulator

Single Contactor Panel   Dual Contactor Panel

SOLID STATE RELAY CONTROL PACKAGE

Solid State Relay Panel
Zone Analog Controller w/ Digital Timer

HOME MANAGEMENT INTEGRATION PANEL

UNIVERSAL CONTROL PANEL

See pages 253-261 for Control Pricing and Options

- The powerful dual-element fixtures provide concentrated heat for larger scale applications.

- The dual element fixtures produce more intense heat and can be mounted up to 12'.

- Fixtures available in lengths of 33", 39", and 61 ¼".

- The **CD-Series** Dual Element fixtures are used in high visual impact locations where their sleek design blends seamlessly.

- Typically installed with custom controls to vary the electric load for comfortable heat in a wide range of conditions.

- May also be installed with duplex/stack switches for a half-power or full-power option.

- Features Include: Minimal Clearance Requirements, Recessed Mounting Options, Short Standoffs, and Mounting Heights between 10'-14'.

- Includes: Standard Mounting Brackets that can be used for both wall and ceiling installation.

- Available in 208V, 240V (stocking), 277V, and 480V. Single Phase or 3 Phase.

- 316 Marine Grade heaters can be custom ordered for installs done near large bodies of salt water.

INFRATECH CONTROLS

INFRATECH
C O M F O R T

WE HAVE THE RIGHT CONTROL SYSTEM FOR ANY SITUATION, ANY BUDGET.

- Infratech custom heating systems help outdoor spaces transition into comfortable sites for entertaining. In addition to our standard colors, sizes, control options and heating capacities, our associates are pleased to work with customers in order to design one-of-a-kind solutions for your home or business.

- The finest hotels and resorts use Infratech to design custom heaters and control packages that seamlessly integrate into the total design and style of their properties. Working directly with clients, designers, architects and engineers, we can develop new heater shapes, colors and profiles that are unique to your specific project.

- We also design and manufacture custom UL Listed 508 controls to regulate much more than just heat output regulation. Our custom controls come with timer capabilities and can be integrated with Home Management Systems.

What Control System is Right for You?

VALUE CONTROLS

ON/OFF SINGLE SWITCH

- Your Simple On/Off Switches may be used in conjunction with all single element heaters.
- Ideal low cost option for your single element heaters
- 20 Amp max per switch
- Wire your heater to the switch, then the switch to your electrical service panel.
- You may run more than 1 heater from a single switch if they do not exceed the 20 allowable Amps, but it is not recommended.

ON/OFF DUPLEX STACK SWITCH

- Your Duplex Stack Switches may be used with all single element heaters.
- Ideal low cost option for your dual element heaters allowing you to turn on both elements or just 1 element for ½ power.
- 40 Amp max per stack, 20 Amps per switch.
- Wire your heater to the switch, then the switch to your electrical service panel.
- You may run your single element heaters from each individual switch provided; as long as they do not exceed the 20 Amps per switch, but it is not recommended.

CONTACTOR PANEL

- Each Contactor has a maximum of 6000-watt capacity at 240V
- Offered in Single or Dual Contactor configuration
- Digital Timer included
- Made by Infratech
- Type 1 Enclosure (It must be mounted indoors)
- UL Listed
- Wiring Diagrams for each configuration
- 3-Year Warranty
- Any 120V Switch (Bluetooth or WiFi)

INFINITE CONTROL (INF) REGULATOR

- This control allows you to turn up or down the intensity of the heater.
- Each dial has a max of 3,000 Watts allowed.
- Each dial has a max of 15 Amps allowed.
- Will work with any single element heater.
- Controlling each element separately using 2 INF Switches for a Dual Element unit is not recommended.

VALUE CONTROLS

ON/OFF SINGLE SWITCH

- Your Simple On/Off Switches may be used in conjunction with all heaters.
- Ideal low cost option for your single element heaters
- 20 Amp max per switch
- Wire your heater to the switch, then the switch to your electrical service panel.
- You may run more than 1 heater from a single switch. If you combine heaters, they cannot exceed the 20 allowable Amps per switch. More than one heater per switch is not recommended.

INFRATECH CONTROLS

UNIVERSAL CONTROL PANEL   See page 258

- 120V Universal Slide Dimmer provided for convenience (1 per Relay)
- The Universal Control is a complete solution that will work with almost any 120V lighting system
- Universal Control Panel is 508/UL-listed and made in the USA
- A WiFi/Bluetooth switch can be purchased separately for operation from your smart phone
- Compatible with Alexa

HOME MANAGEMENT SYSTEM   See page 259

- Infratech's Home Management Control is compatible with top selling systems like Savant™, Lutron™, Crestron™, Control 4™, and others.
- Infratech's simple interface requires a 0-10V DC signal for streamlined installation and straightforward programming.
- This control option allows the user the ability to save preferred heat settings for off-site control via mobile device, control zones, heat intensity, timer functions, and more!

SOLID STATE RELAY PACKAGE   See page 260

- Infratech's Solid State Controls are engineered for your individual project and suitable for commercial or residential installations of any size.
- Multiple zoning capabilities.
- Allows for the option to adjust the intensity of heat of one or more heaters in a specified target area.
- Controls are built to UL 508 listing, which is a higher safety standard than the National Electric Code (NEC).
- Heaters are hard wired directly to the Solid State Relay Panel.
- Tested before leaving the factory, and provided with wiring diagrams for each installation.

UNIVERSAL CONTROLS

![INFRATECH COMFORT]

Universal Controls

A luxury home where convenience is at a premium. A scenic resort where a seamless look is desired. An exclusive hot spot with multiple heating zones.

At Infratech, we know that our customers have different needs when it comes to the controls they choose for their properties. This is why we offer a broad range of custom control options that allow you to enjoy your Infratech heaters "your way". From comprehensive Solid State Control Packages to Smart Home Integration Panels, and now our new Universal Control Panel that enables you to choose your own switches. There's an Infratech custom control that can help you unlock the versatility, functionality, convenience and comfort you desire from your Infratech heating system.

Special Order

UNIVERSAL CONTROL PANEL

- 120V Universal Slide Dimmer provided for convenience (1 per Relay).
- The Universal Control is a complete solution that will work with almost any 120V lighting system.
- Universal Control Panel is 508/UL-listed and made in the USA.
- A WiFi/Bluetooth switch can be purchased separately for operation from your smart phone.
- Compatible with Alexa

SPECIFICATIONS

- Each relay has a max capacity of 9,000 Watts.
- You can control (3) 3,000 Watt heaters off 1 Relay, or (1) 6,000 Watt heater off 1 Relay.
- You may NOT mix heater wattages on a single relay.
    - **EXAMPLE**: You can NOT put a 3,000 Watt heater and a 6,000 Watt heater on the same relay.
- We advertise up to a 6 Relay Control Panel, however the number of relays can be unlimited if the power supply is adequate. (Call for quote.)

SOLID STATE RELAY & CONTROLS

INFRATECH
COMFORT

CONSISTS OF A SOLID STATE RELAY PANEL AND ZONE ANALOG CONTROLLERS

- Infratech's Solid State Controls are engineered for your individual project and suitable for commercial or residential installations of any size.
- Multiple zoning capabilities.
- Allows the option to adjust the intensity of heat for one or more heaters in an area.
- Controls are built to UL 508 listing, which is a higher safety standard than the National Electric Code (NEC).
- Heaters are hard wired directly to the Solid State Relay Panel.
- Tested before leaving the factory, and provided with wiring diagrams for each installation.

SOLID STATE RELAY PANEL

RELAY
LOW VOLTAGE INPUT TERMINAL STRIP (FROM ZONE ANALOG CONTROLLER)
MAIN DISTRIBUTION BLOCK AND GROUNDING LUG
HEAT SINK
BREAKERS
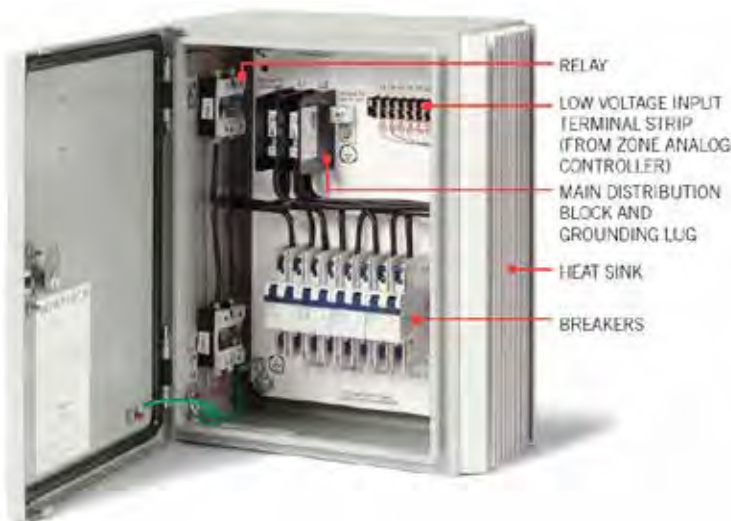

Up to 9000 Watts on each Relay
(3) 3,000 Watts, (2) 4,000 Watts, (1) 5,000 or 6,000 Watts
Must be the same wattage on relay.

SOLID STATE RELAY PLACEMENT

- Surface Mount in a well ventilated area.
- Heat Sinks are the 1" deep Aluminum Extrusions on the left and right sides of the panel. It is suggested the power be brought in through the top or bottom of the panel (not from the back).
- Minimum clearance is 6" on each side, 12" from the top and bottom.
- Additional clearance will be needed if placed in a poorly ventilated area.
- NEMA 4 Rated, which is completely weather resistant.
- Must be accessible per National Electric Code (NEC).

TWO ZONE ANALOG CONTROLLER W/ DIGITAL TIMER

DIGITAL TIMER
ON / OFF SWITCH
INTENSITY CONTROL KNOB

Up to 3 Relays on each heat intensity knob.

ZONE ANALOG CONTROLLER PLACEMENT

- NEMA 12 Rated, will need to be mounted in a well-protected covered area.
- Zone Analog Controllers can be installed in any suitable location that will make it convenient to control the heater(s).
- Custom NEMA 4 housing also available upon special order.
- The timer has 5 settings from 15 mintues to 4 hours.

SOLID STATE RELAY & CONTROLS

SPECIFICATIONS

- Each relay has a max capacity of 9,000 Watts.

- Each heater on a single relay must be the same wattage.

- This relay box is installed as a sub-panel. The heaters are connected to the relay box, then the relay box connects to the electrical service panel.

- This system is compatible with the Solid-State Relay Controls.

- Each Control Knob can control up to 3 Relays.

  - **EXAMPLE**: You can control (3) 3,000 Watt heaters from 1 Relay. You could then control 3 Relays from 1 Solid State Dial Control. Giving you the ability to control 9 heaters with 1 control knob.

Select one Solid State Relay Control and a Solid State Relay Panel to make a complete package.

SOLID STATE RELAY CONTROLS

Special Order

(Compatible with all voltages. Must purchase Solid State Relay Controls)

Item No	Description	Retail
30-4045	1 Zone Analog Controller w/ Digital Timer	$669
30-4046	2 Zone Analog Controller w/ Digital Timer	$841
30-4047	3 Zone Analog Controller w/ Digital Timer	$1,024
30-4048	4 Zone Analog Controller w/ Digital Timer	$1,207

ZONE ANALOG CONTROLLER W/ DIGITAL TIMER

- Up to 3 Relays on each heat intensity knob.

SOLID STATE RELAY PANELS

Special Order

(Compatible with all voltages. Must purchase a Solid State Relay Panel)

Item No	Description	Retail
