Outdoor Luxury Made Simple, In Just 5 Steps!

Building Blocks

Kindred Outdoors has redefined how to build outdoor living spaces with a collection of strong, yet lightweight building blocks. The blocks quickly assemble into custom barbecue islands, fireplaces, fire pits and more—ready to be dressed with stone or brick within hours.

Kindred Outdoors vs. Concrete Block

Kindred Outdoors:

- 6 Outdoor Cabinets
- 4 Raised Backsplashes
- 2 End Caps
- Hand Tools
- 2 People
- 1 Day**

CMU Concrete Block:

- 160 Qty. Concrete Blocks
- 200 Ft. Rebar
- 45 Qty. Bags of Cement
- Heavy Equipment
- 4 People
- 7 Days**

The sheer magnitude of materials, time and manpower required to build a CMU Concrete Block kitchen compared to Kindred Outdoors is well illustrated in this “example.” Kindred Outdoors allows you to create beautiful and authentic masonry outdoor spaces in less than half the time compared to traditional building techniques. The strong, yet lightweight material doesn’t require additional concrete footings, bending rebar, or any of the mess, waste and time associated with CMU installations.

Cabinets & Accessories

The Building Blocks. Kindred Outdoors products quickly assemble into a virtually limitless combination of configurations. Each piece is made of glass-fiber reinforced concrete (GFRC) which can be installed on any solid flooring surface without concrete footings or rebar. Eliminated is the

construction waste and additional time associated with traditional masonry block installations. Kindred Outdoors products can be assembled in just hours; even cut-outs for barbecues, sinks, drawers and burners can be done on-site.
