# Fireplace Surrounds

## Handcrafting a Custom Work of Art

Kindred Outdoors & Surrounds has demonstrated an undeniable passion for creating authentic products that not only elevate quality and design, but also attainability. Our commitment to this philosophy continues with our striking collection of Kindred Fireplace Surrounds.

Our fireplace surrounds are designed to bring elegance and warmth to a wide variety of architectural styles. It all begins with a proprietary blend of limestone aggregates, minerals, natural pigments and special bonding agents. The material is hand applied layer by layer into the mold—creating natural color and texture variations—guaranteeing no two surrounds are exactly alike. Once the surround is removed from the mold, our skilled artisans hand finish each piece through a four-step finishing process. The distinctive one-of-a-kind process creates a highly authentic appearance which would normally only be found with natural carved limestone. Similar to natural limestone, variations in color and texture are celebrated characteristics of the product.

## The Colors and Textures of Authenticity.

Kindred Fireplace Surrounds are available in four colors—designed to represent the various types of natural limestones found across France and other parts of Europe. Choose from two finishes including Honed, a smooth texture, or Travertine, a more textured surface. Both finishes include color and texture variations, providing the authentic character and attributes of natural stone.
